Keywords in blue - strengths

Keywords in red - opportunities for growth

1) To date we've had a town hall to introduce the process and gather input, a parish wide survey to gather more detailed input, and professional engineers complete comprehensive assessments of all our facilities.

2) Currently, HTK Architects' Maria Kutina has met with many of our councils, ministries, and staff. More meetings are planned which will provide the opportunity to hear individual feedback.

3) Look for bi-weekly inserts in the bulletin to focus on aspects of the planning process. Keep an eye out as well as for information on town hall meetings and other important information.

What is a Master Plan?

It's a road map for maintaining existing facilities and development of future facilities based on needs.

Our master plan will be a comprehensive study to ensure parish strategic goals can be met with facility improvements or additions which are developed economically & systematically.
